CUSTOMER PROFILING

WHO DO YOU THINK YOU'RE TALKING TO?

Whether you're looking for new customers or want to retain current ones, you need to get to the root of who they are, what makes them tick and how to influence them. We utilise some of our trusty industry tools such as Experian, Kantar and TGI to make sense of complex customer data and provide you with a clear view on who they are.

We delve into:

- **WHO**
Who are they?
- **WHY**
What & why do they buy / use?
- **HOW**
How do they behave in media?

STRATEGY

OR SIMPLY PUT, TELLING A COMPELLING STORY

First, we work to understand everything we can about your brand, audience and the market you play in. We then audit & analyse your mix of media channels and strategy, as well as the creative. From there, we realise what 'the job to be done' is for media and the rest flows from that.

We analyse:

- Your market – key market trends & competitors
- Your brand – challenges & opportunities
- Your audience – who they are & what they want from you
